Shari,
I couldn't reach you earlier, so I left a voice message request.
Do you have an address to ship the galley reports (name, address, phone number) to yet??
(Brett's also checking with Connie).
As you can see from the message below Richmond's able to tier the data so we'll get counts first.
I'll forward to you ASAP tomorrow.
Thanks,
Margaret.

I just got off the phone with Lynne Parks and it looks like we will have counts in the morning and the galley reports tomorrow afternoon. (Let's knock on wood we don't have any system crashes this evening.)

Margaret - did you get Lynne the address for the Research facility?
