Subject: Tin, Bandana and Mitten

Karen,

Thanks for the quick feedback for the 4Q00 Database Planning note. Will have it done and sent out tomorrow.

Also, Sven and I had a good discussion with Michelle this evening. We would like to sit down with you tomorrow to go through the details and samples. But in short:

2001 Birthday

- Tin may not work because of the squeezed timeline. First shipment would unlikely happen until May 2001. However, it is strongly recommended to continue to pursue it for 2002 Birthday.
- We are moving on with Bandana. Both cost and timing look good. It's simple and less vulnerable to screw-up. We got samples to show you.

Winter Ranch Follow-up (Mitten)

- We got new samples. Asking Michelle to cost it out based on 45M and 20M quantities (\$6.40 per pair based on 65M). First shipment is probably around mid-Jan. next year, meaning a mail drop by the end of 01/01.

Sven, please correct me if I mis-interpret anything. Let's discuss again tomorrow.

Many thanks,
Kam
