Geneva, 27th January 1978

Dear Harry,

I was pleased to read that Dr.J. Bonnet of Baumgartner placed an order for a nitric oxide analyser.

To summarise, up to now, the following Companies are equipped with this BAT Analyser :

Burrus
B.A.T.
Baumgartner
Dr. Romann

Philip Morris are using the same apparatus' principle, so in case of normalisation, it is most probable that our methods would be adopted .

With kind regards,
Yours sincerely,

W. Bizon

c.c. Dr. R.A. Crellin.
