R. J. REYNOLDS TOBACCO INTERNATIONAL, INC.
RESEARCH AND DEVELOPMENT
WINSTON-SALEM, NC 27105

DATE: October 24, 1994
TO: Ms. Donna Tuttle-Olm
Scientific and Regulatory Affairs
FROM: Mr. Alden F. Miller, Jr.
RE: Magna 79mm CPB (FSU) - Ex. Torbali, Turkey

Please advise if any regulatory or ingredient problems will prevent this product from being launched in the Former Soviet Union (FSU). This data represents a new brand style which will be produced in Torbali, Turkey. Currently, RJR Turkey produces the 84mm soft pack style of Magna which uses the identical materials that this new 79mm CPB product will utilize. The 84mm product was approved for launch in May of 1994. I have attached all approval documentation which was associated with the 84mm soft pack Magna to help in the approval process of the new 79mm CPB product (see attachments). Please advise on the suitability of this 79mm CPB product on or before December 2, 1994 as production in Torbali is slated to start on December 7, 1994.

Best Regards,

Aldy
Alden F. Miller, Jr.
